Launching Your Podcast in 8 weeks - *or less!*

WEEK 2 ASSIGNMENT GUIDE

The Equipment, Software, & Resources
You Need to Get Started

DISCLAIMER: Please note and understand that the contents of the assignment guide, other class materials, resources, videos, podcasts, coaching sessions, emails, texts, and any and all suggestions and recommendations that Dave makes to you are made in good-faith with the sole intention of helping you succeed. His recommendations are his opinions based on his own experiences. You are 100% responsible to do your own research and make your own decisions. Furthermore, by taking this class you acknowledge, understand, and agree that you are 100% responsible for your own actions.

MY ACTION CHECKLIST

The bible says, “*But be ye doers of the word, and not hearers only...*” (James 1:22). With that in mind, it’s time to do. And rest assured, you’ve got this! 🙌 You see, this week’s assignment if you choose to accept it, is all about shopping. That’s right, I said shopping! 😊 So not only do you get to research, buy, and setup some cool stuff, but we’re going to help you get fast tracked with some great suggestions, deals, and solutions we’ve found on our journey.

Remember, one of the best parts about podcasting is that almost anyone can do it, and on any budget. Just because your bank account balance is low, does not mean you cannot produce a quality podcast. In fact, higher end solutions typically only produce margin improvements and may not be worth the investment for many podcasting enthusiasts.

With that said, the next page is a checklist of the equipment and solutions that you decided to order and install after our lesson and coaching session together.
